Summary

Software Engineer skilled in full-stack development, REST APIs, authentication, and databases. Experienced with React.js, Express.js, MongoDB, MySQL, and application deployment. Strong in DSA with a focus on building scalable, practical, and user-focused software solutions.

Experience

Website Development Intern — Jun 2026 • Sep 2026

TPG Fitness Private Limited — *Nanded, Maharashtra*

- Completed a **4-month internship** on the company's web platform for the TPG smart training system.
- Developed responsive, cross-device web interfaces using **React.js, HTML5, CSS3** and **JavaScript (ES6+)**.
- Integrated the front-end with backend **REST APIs** using **Axios**, including state and error handling.
- Contributed to REST API development on a **Node.js** and **Express.js** backend.
- Worked on database-backed features and data integration for web modules.
- Used **Git** and **GitHub** for version control and collaborative development.
- Debugged, tested and optimised pages for performance, usability and cross-browser compatibility.
- Worked with the development team through the full software development lifecycle, up to deployment.

Projects

Farmer World Wellbeing Web (FW3) | GitHub

- Built a full-stack platform with soil testing appointment booking, real-time disaster alert broadcasting, village committee management and government assistance scheme tracking.
- Developed **RESTful APIs** with **Express.js** and **MongoDB** using structured schemas, with role-based access for farmers and administrators.
- Built a responsive **React.js** frontend for booking, alerts and record management.
- Sent email notifications using **Nodemailer** and SMS alerts using **Twilio**.

CampusConnect

- Built a full-stack departmental resource management system for notes, faculty information, previous-year question papers and placement resources.
- Implemented **CRUD operations** with **MongoDB** schemas and an **Express.js** backend, with **JWT authentication** for role-based access.
- Built reusable **React.js** components to upload, browse and filter resources by subject and semester.

Education

B.Tech • SGGSIE&T — 2026

Skills

Languages: C, C++, JavaScript **Frameworks:** React.js, Express.js **Databases:** MySQL, MongoDB
Tools: Git, GitHub, Postman, Vercel, Render **Concepts:** DSA, OOP, REST APIs, JWT Authentication

Achievements and Certifications

Solved **DSA problems on LeetCode** and actively practiced data structures and algorithms. LeetCode Profile

Participated in **HackFusion Hackathon** organized by SWAG & GDG, SGGSIE&T, contributing to the **React.js frontend** under strict deadlines.

Contributed to the **RNXG Robotics Club**, gaining experience in project planning, teamwork, and collaborative development.
